

PRACTICE CHART

Student Name: _____

Certificates and awards will be given to each student who meets their minimum practice requirement average from September through May. Awards will be given to one student in each age category who has the best practice average. If no one in an age category meets their practice minimum, then no awards will be given in that age group.

Complete this chart every week and bring it to your lesson. You will only receive credit for your practice time for a given week if you bring this form with you to your lesson THAT WEEK and it has been initialed by one of your parents. Parents are encouraged to help their student to be totally honest about their practice time. If your forget to bring the practice chart, or it is unsigned, you will not have any practice time registered for that week.

Practice time includes all minutes actually spent practicing the student's lesson music. Time for breaks or playing music not part of your lesson plan is not to be included on this chart.

Students may practice on any five or six days of the week. Students are NOT expected to practice all seven days of the week. See the Policy Guidelines for the music studio for minimum practice times.

Week of Lesson (enter date)	Practice Time (in minutes) for:						Parent's Initials
	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
